

# TUNNEL RFID SCANNERS FROM BOWE IQ

- AUTOMATED TRACKING
- IMPROVED INVENTORY MANAGEMENT
- HUGE REDUCTION IN LOST/MISPLACED ITEMS
- REAL-TIME STOCK LEVEL INFORMATION
- ACCURATE PICKS AND SHIPMENTS
- SEAMLESS SYSTEMS INTEGRATION
- ENHANCED SECURITY

Using RFID technology that can read up to 1000 tags per second, BOWE IQ's tunnel scanners provide accurate real-time readings of the contents of boxes on conveyors. They are primarily used to check the accuracy of picks, to verify deliveries at the receiving dock, and to validate shipments—without the cost of manual scanning, human error, and inventory discrepancies.

BOWE IQ's tunnel scanners can be fixed permanently around a conveyor or used as a mobile scanner on wheels. They can be adapted easily to various types of goods and packaging, making them suitable for a wide range of warehouse environments and industries. In-built lights indicate in real time any discrepancies such as an incorrect pick or a mismatch to delivery data.

# THE TUNNEL SCANNER FROM BOWE IQ SPECIFICATIONS

**T-1300**

## Dimensions:

130 cm (L) x 83 cm (W) x adjustable height  
51.2 in (L) x 32.7 in (W) x adjustable height

## Operating Temperature:

-20°C to 55°C / -4°F to 131°F

## Options:

Fixed to floor or mounted  
on wheels

## Storage temperature:

-40°C to 70°C / -40°F to 158°F

## RFID Reader:

2-port, 4-port, or 8-port fixed  
RFID reader

## Power:

PoE 240V

## Antenna Options:

Circular or linear RFID antenna

## OPTIONS

BOWE IQ's tunnel RFID scanners are fully integrated, ready to plug in, and can be mixed and matched as necessary with BOWE IQ vertical and overhead RFID scanners as well as hand-held scanners. They can be supplied as a standalone product, as part of a full BOWE IQ Cloud software ecosystem, or at any stage in between. Their versatility also means that customers can start with a basic installation and easily scale upwards as needs evolve.

## BOWE IQ: THE INTELLIGENT SOLUTION

Together with the BOWE Group, BOWE IQ offers a one-stop-shop approach to business process and material automation & control. Our smart IoT solutions for the entire process chain are already embedded into the operations of over 220 enterprises worldwide. This vast wealth of expertise together with our dynamic solution-driven ethos are what give BOWE IQ the edge, enabling us to respond intelligently and flexibly to your unique requirements.
